

Activity #4: Internet Safety Game

(10 minutes)

Preparation for Internet Safety Bingo:

There are ten templates with two Bingo cards on each sheet. Each template has the answers in a different pattern so be sure to copy all eight templates. It is suggested that you copy them in color. Cut each sheet in half.

Instructions for playing Internet Safety Bingo:

Distribute an Internet Safety Bingo card to each student

Tell students:

- that you will read sentences that can be answered or completed by the words in the squares on their bingo card.
- to mark an **X** in the squares when they have found the correct answer.
- the first one to get **4** squares horizontally, vertically, or diagonally should raise their hand and say: “**Internet Safety!**”

TEACHER:

- Read Internet Safety Bingo questions. It is important to mix up the questions and not read them in the order that they are written. **Do Not** read the numbers next to the questions, however, circle the number of the questions you read to the students to remember which ones you choose.
- When there is a winner(s) have them read the numbers and answers of their winning squares to you and check them against your answer sheet.
- Continue the game, if time permits, to encourage further student participation and to reinforce the content of the lesson.
