

App for LIFE

Pulpit Announcement

Each of us is called to build the Culture of Life in our families and our communities. But, how do we do that with our busy schedules? Introducing the App for LIFE, a new prayer app that asks you to pray at the very moment a woman is making a pregnancy decision, sending grace right when she needs it. It takes just a few minutes each day to be practically involved in saving lives and offering maternity and parenting resources to women. The App for LIFE is available for smart phones in the App Store and Google Play. Download the App for LIFE, then receive alerts and pray. It is that easy to save lives!

Bulletin Announcement

If you have a smart phone, you have apps. Some are for games, others for social media. What if there was an app that could save lives every day? **Archbishop Gomez invites you to download and use the App for LIFE!** This prayer app alerts users when women call for help with an unintended pregnancy. Your prayers at the time of her decision send grace at the moment she needs it. We are already seeing lives saved from abortion and women given the help and resources to choose parenting or adoption. **The App for LIFE is available in the Apple App Store and Google Play or at www.optionsunited.org.** Make the choice for life today with the App for LIFE!
