Hope After the Pandemic: Building Solidarity, Resisting Throwaway Culture

“Solidarity is the road to take towards a post-pandemic world, towards the healing of our interpersonal and social sicknesses. There is no other path.”

— Pope Francis

What Pope Francis says about the post-pandemic world in general is particularly true for Southern California. The pandemic has highlighted profound “social sicknesses” in our region, involving health care, housing, nursing homes and job loss. The impact on the poor, the elderly, and communities of color shows how throwaway culture deeply affects the most vulnerable. In this talk, Charlie Camosy will lay out a path that each of us can take towards deeper solidarity in our families, communities and region.
